Cut Path Setup

PRINTITFAST

Step 1

Open your artwork
in Adobe Illustrator.
Go to "window"
and Select "Swatches".

Double click on Pink
C-0-M-95 Y-20 K-0

Step 2

Change Color type
to "Spot Color" and
call the Swatch
"CutPath".
Must be with a capital
C & P and no space
or it will not work.
Click "Ok".
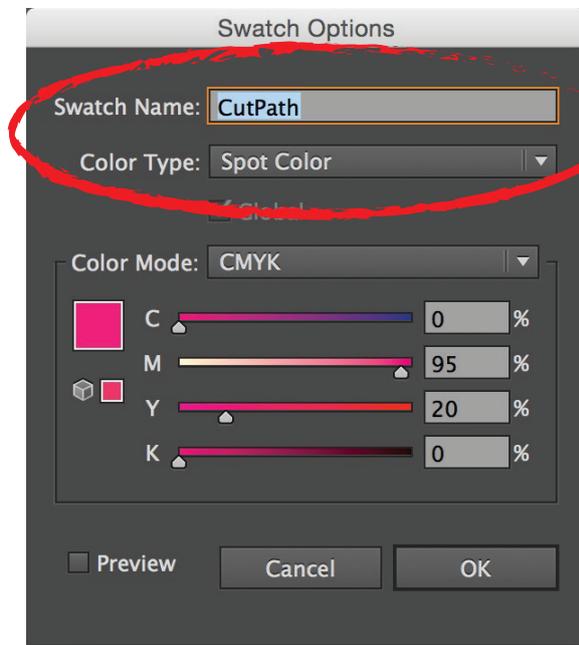

Step 3

You will noticethe color now
has a triangle. This means
"Spot Colour"
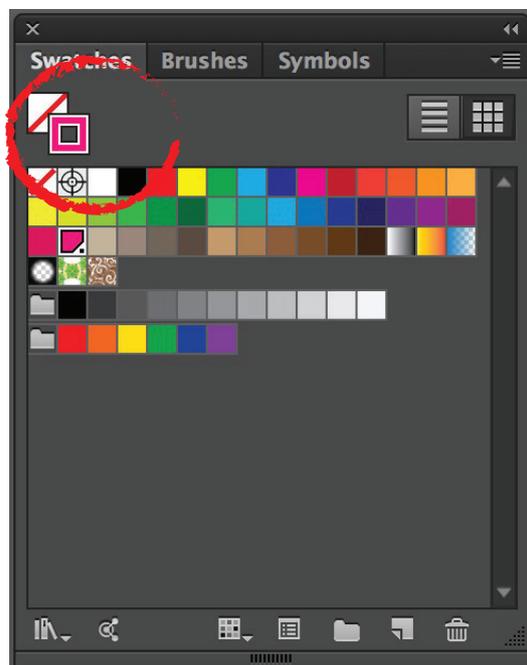

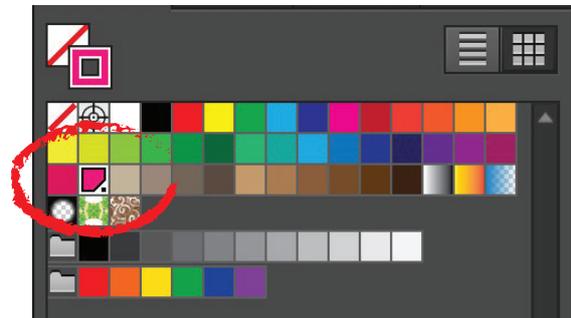

Step 4

"Select All" your artwork and change the outline colour
to the "CutPath" colour. 1 point width is preferable.
Highlight the artwork again and change the "Fill" colour to
"No colour". You will be left with the outline of your artwork
wich is the path we will cut. Save as a PDF.
